Subject: Re: [External] WRAL request for comment: pipeline protestors

A few edits from policy.

Members of the policy team in the Governor's Office met with the demonstrators to hear their concerns. North Carolinians are deeply connected to the land, and environmental stewardship is critical to economic development. DEQ spent months asking the pipeline developers tough questions during the permit application process. They will continue to hold the pipeline company accountable by insisting on clean water, effective sedimentation control and high air quality along the path.

Would something like this make sense...

Members of the policy team staff met with the demonstrators to hear their concerns. DEQ spent months asking the pipeline developers tough questions during the permit questions. They will continue to hold the pipeline accountable and insist on clean water, effective sedimentation control and high air quality along the path of the construction.

Subject: RE: [External] WRAL request for comment: pipeline protestors

Jeremy and Darryl spoke with the group earlier this morning and understand their main requests to be:

- A moratorium to allow more time for public input
- Protect NC from violations occurring during pipeline preparation (complaints about crews/contractors)

Hi, Jamal and Ford. The pipeline protestors are holding a press conference at noon today outside the mansion, and we're covering it.

Does the governor have any response to their requests? Has he met with them?

Thanks,
Laura
